

Bitter Love

Draw me closer kiss me bitter love
Butterflies and pain go hand in hand
You pull me in and take me far away
Darkness hides a shadow in your eyes

Chorus

I never thought you'd bring me to my knees
Bitter love spills out inside of me
Blinded by the love I can not hide
Blinded by the love I can not hide

Pleasure hides the pressure of the pain
Tears trail together like the tide
You pull me in and take me far away
Darkness hides a shadow in your eyes

Repeat chorus

Passion pulls me closer to the edge

Chorus

I never thought you'd bring me to my knees
Bitter love spills out inside of me
Blinded by the love I can not hide
Frightened by a force I can not fight
Binded by a bond I can not break
Blinded by the love I can not hide
Blinded by the love I can not hide
