

Do You Feel the Same

Restless, excited, I always want you around
Gonna steal your attention
So call me and I'll be right around

Chorus

So tell me do you feel the same
Are you really where I am
Coz I really need to know
I really need to know
In the middle of the night is it me you're reaching for
Am I the girl of your fantasies
Or is it some one else before

Won't share you with no one
Nothing else in the world
Gonna cause an explosion
Some hold me, come on feel the love

Instrumental

Chorus

Some else before
Someone else before
Someone else before
