

## Everything's Gonna Be Alright

I've been a victim of love, I've been convicted  
I've been addicted to love, I've been converted  
I've been so frightened by love, I've been excited  
I've been infected by love, I've been protected

### Chorus

I see the sun is shining baby  
I chase the rain out of the sky  
I kiss the moon and make a promise tonight  
Everything's gonna be alright, everything's gonna be alright

I've been defeated by love, I've been so cheated  
I've been so eager for love now you're my reason  
I've been a dreamer of love, I've felt the fever  
I've searched much deeper for love, I've searched much deeper

### Chorus

I see the sun is shining baby  
I chase the rain out of the sky  
I kiss the moon and make a promise tonight  
Everything's gonna be alright, everything's gonna be alright

### Bridge

All I need is right here with me baby  
All I need is right here in your smile  
All I need is you forever baby  
All I want is written, written in your eyes

Repeat Chorus twice
