

It's My Time

You're beautiful intelligent,
You're curious and genuine
I saw all this with just one look
Just one look into your eyes

Pre Chorus

I'm drawn to you like the sky is blue
Like rivers flows and seas do turn
And I know you, I hardly do
There's magic in your eyes tonight

Chorus

Coz its my time, Its my time
Coz its my time, It's my time, I love

And in your smile there's mystery
And in you gaze a history
I felt as though I'd met you in another life,
It's my time

Pre Chorus

Chorus

Bridge

So catch me I'm falling
Faster than you've ever seen
Over and over again
I can't help this feeling

Though your eyes do tell a tale
I know I was never without fail
One step away from everywhere,
Every where you've ever been

And I can say I'd run away
To be with you in any place
Coz you're the kiss I long to feel,
I need u with me, It's my time
