

Silent Prayer

I lost my will to live when you said you'd leave
Never thought we 'd say goodbye
I was so happy till you went away
But I wont beg you to stay

I close my eyes there's laughter everywhere I go
But I feel no need no more
You're the only one who understood my ways
So why d' you through it all away

Pre Chorus

I light my candles and I say a silent prayer

Chorus

Why d' you have to go and through it all away
Stand by my side
Why d' you have to go and through it all away
Stand by my side

Staring at the stars searching for a clue
But they all spell your name
I was never bored with the same old games we played
So why'd you through it all away

Pre Chorus

Chorus
