

Together we stand, together we fall

When you look in the mirror tell me what you see
The face of a killer is what you'll be
You don't realise all the things you do
I know you're hurting, I'm hurting too.

I know I'm different in many ways
That's just makes me so unique
Yes you're stronger but that will change
I'm gonna bring you down to your knees

Pre Chorus

Said you won't beat me that's for sure
We're gonna show the world so much more
Lets stand together, stand up tall
Show these bullies once and for all

Chorus

Together we stand together we fall, you wanna beat them you gotta beat us all
So be big strong and confident, so lets be big strong and confident

You are much stronger than you think you are
You have voice, we all have a heart
I know you're afraid but this won't go away
So let's beat the bullies and make a change

A faceless victim is all you'll be,
Unless you talk to somebody
Too many truths hidden in the dark
Things won't change until we make a start

Pre chorus

Chorus

Repeat
