

Who's Gonna Fight for Them?

Some things will never change,
Some prayers unanswered
I live to see the day cruelty is cancelled

Chorus

Who's gonna fight for them? who's gonna stop their pain?
Who's gonna save today and make this darkness go away?

Tears are rolling down my face
I wanna see some answers
If I had one wish I'd save every life they wasted

Chorus

Bridge

We forget the messages time has forgotten
We forget we have caused this problem
We keep repeating the same mistakes
Well maybe we just need to change

Beauty brings about such pain
It's like they have no standards
Wear their fur coats with no shame
Of the blood all over their hands

Chorus twice
